FILE DOCUMENTATION

2006 FRESHMAN SURVEY DATA FILE

File Name: CIRP2006.DAT

Record Length: 302

This layout describes your 2006 CIRP Freshman Survey Data File. The values "0" (zero) and " " (blank) represent "missing" or "did not respond" for all variables in this file.

The variables in columns 7-271 were scanned directly from the survey instrument. Those in columns 272-281 were computed from the scanned items. The variables in columns 282-302 were keypunched, rather than directly scanned from the survey instrument.

If you have ordered this data file in the default "fixed-field text" format, you will have also received an SPSS Syntax File. It contains all commands required to describe the data file, as well as some simple RECODE statements. The file CIRP2006.SPS is configured for use on a personal computer using SPSS for Windows or SPSS for Macintosh. The file USESPSSC.DOC contains instructions on how to use the Syntax file to read the data into SPSS.

To match the first-time full-time records used to produce your Institutional Profile, you must select only those students with a Student Status (STUDSTAT, in column 281) of "1" <u>and</u> who reported a gender (SEX, in column 20). In SPSS Syntax language, the command to accomplish this is:

SELECT IF studstat=1 AND (sex=1 OR sex=2).
